Summary — I am a Computer Science undergraduate at Jawaharlal Nehru Technological University with a CGPA of 8.57 and strong problem-solving skills. Experienced in developing full-stack web applications using HTML, CSS, JavaScript, PHP, MySQL, and Node.js. I have built multiple projects, including a Virtual Classroom System, Grampower – Village Electricity Monitoring and Complaint System, and a Student Grievance Portal. Solved over 200 problems on LeetCode, demonstrating a solid understanding of Data Structures and Algorithms. My short-term goal is to become a skilled Software Engineer, and my long-term goal is to pursue a career as a Professor, sharing knowledge and inspiring future technologists.

Skills

- **Programming Languages:** Java, Python, HTML, CSS, JavaScript, PHP
- **Databases:** MySQL, MongoDB
- **Web Development:** Frontend & Backend Development
- **Tools & Platforms:** XAMPP, Git, VS Code
- **Core:** DSA, OOPS, OS, DBMS
- **Problem Solving:** Data Structures and Algorithms, LeetCode (200+ problems solved)

Projects

Academic Project — Virtual Classroom System Dec 2024 – Apr 2025

- Designed and developed a web-based classroom platform using **HTML, CSS, JavaScript, PHP, and MySQL**
- Built separate login systems and dashboards for students and teachers
- Enabled video and material uploads by teachers, with restricted access for students
- Implemented **email notification system** for sending updates to specific branches and years
- Improved accessibility and learning flexibility through a student-centered interface

Grampower – Village Electricity Monitoring and Complaint System May 2025-June 2025

- Developed a web-based system to monitor electricity status and manage complaints in rural areas.
- Implemented real-time power tracking and a complaint registration module using PHP and MySQL.
- Deployed the application on InfinityFree with a responsive UI for easy public access.

Student Grievance Portal Aug 2025-Oct 2025

- Built an online **grievance management system** for students to submit and track complaints easily.
- Integrated **admin panel functionality** for efficient issue tracking and resolution.
- Improved **transparency and communication** between students and institution authorities.

Problem Solver — LeetCode Ongoing

- Solved **200+ problems** focusing on **Data Structures and Algorithms** (Arrays, Linked Lists, Stacks, Queue etc.)
- Strengthened logical thinking and coding efficiency in **Java**
- Passionate about continuous improvement in problem-solving and algorithmic thinking

Contributions

JNTUA Student Attendance Checking WebApp Sep 2025 – Oct 2025

- Designed and developed the **frontend interface** for a JNTUA attendance tracking web app.
- Implemented **“Can Skip”** and **“Need to Attend”** features to calculate how many classes students can skip or must attend to maintain 75% attendance.

- Live Demo: <https://jntua-attendance-app.vercel.app>.

Education

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Jawaharlal Nehru Technological University, Anantapur (JNTUA)

CGPA: 8.57 / 10

Intermediate (MPC)

Board of Intermediate Education, Andhra Pradesh

Marks: 983 / 1000

Secondary School Certificate (SSC)

Board of Secondary Education, Andhra Pradesh

Percentage: 592 / 600

Experience

InternPE | Python Programming Intern

Sept 2024-Oct 2025

- Completed a 4-week internship focused on Python Programming
- Developed time generation application using Tkinter for GUI-based time display.
- Created Tic-Tac-Toe game and Snake game implementing Python logic and event handling.
- Designed interactive drawings using the Turtle module.
- Enhanced problem-solving and programming skills through hands-on mini-projects.

Aureeture AI | Campus Director Intern

Aug 2025-Oct 2025

- Promoted AI programs and products in the campus.
- Organized events, bootcamps, and student activities.
- Acted as a link between the company and students.
- Helped students know more about AI and new technologies

YugaYatra Retail (OPC) Pvt. Ltd. | Software Engineer Intern

Sep 2025 – Nov 2025

- Currently working on **SchoolDekho.in**, a comprehensive educational platform connecting parents, students, and schools with integrated financial aid options.
- Contributing to the **frontend development** using **Next.js**, **Tailwind CSS**, and **Framer Motion** for responsive design and smooth animations.
- Collaborating on implementing the **AI-powered chatbot** using **OpenAI API** and **Node.js backend** to assist users in school search, loans, and scholarships.
- Assisting in integrating **Cloudinary API** for media storage and **Supabase (PostgreSQL)** for database management.
- Working closely with the backend team to implement **secure authentication** (JWT) and data-fetching APIs using **React Query** and **Express.js**.
- Gaining hands-on experience in **team collaboration**, **real-time deployment** (Vercel & AWS), and **industry-grade development workflows**.
