Dear Sathwik Reddy Suram,

We are pleased to offer you an internship opportunity at **Aureeture AI** for the period from **03rd August 2025 to 03rd Oct 2025**.

You will be working as a Campus Director, representing our AI and Product Innovation Unit at your campus. In this role, you will have the opportunity to lead outreach initiatives, drive awareness about Aureeture AI, and build a strong community of students interested in AI-driven solutions and product innovation.

You will act as the primary point of contact between our team and your campus, helping us engage students through **events, bootcamps, and collaborations**.

Please note that the first **15 days of your internship will be a probation period. During this time, your performance and fit for the role will be evaluated.** Your continuation in the internship is subject to the successful completion of this probationary period.

As part of the internship program, you will be eligible for a fully performance-based stipend, subject to periodic evaluations and the successful delivery of assigned tasks.

Additionally, you will receive a welcome kit, exclusive access to the Aureeture AI Bootcamp and product, and early access to the Aureeture AI Copilot once it is launched. Outstanding performers will also be considered for a **Pre-Placement Offer (PPO) and a Letter of Recommendation (LOR)** based on their contributions and overall performance.

While this is a remote internship, you may be requested to attend occasional in-person sessions depending on project requirements and academic obligations. Any such visits will be planned and communicated in advance.

We are excited to have you on board and are confident that your time with Aureeture will be a valuable learning experience.
